PROFILE

I'm a Machine Operator turned Full-Stack Developer looking for a Jr. Developer opportunity! I have a passion for **problem solving** and coding that I would love to bring to your team. I've got excellent communication skills and **an acute eye to detail** that allows me to build **pixel perfect** front-end and back-end solutions! So, what are we building?

EXPERIENCE

General Assembly Bootcamp, NY — 2023 (420 hours)

- **Coding Bootcamp: 420 Hours** of coding projects in a pseudo-professional setting.
- Utilized tools such as: Postman, Netlify, MongoDB Atlas, and GitHub to create deployable, efficient, optimized code.
- Learned to use languages such as: Javascript, Python, HTML, and CSS to create functional front-end web applications.
- I can create **RESTful** databases using MongoDB, express and mongoose - with full CRUD functionality.
- Utilize React.js and Node.js to create beautiful, interactive websites with multiple Components, Screens and quick response times. These websites consume API's for data.
- Utilize JSON web-tokens as authentication for authorization of website functionality and conditional rendering.
- In group assignments, I make sure to communicate effectively and constantly. This allows the team to move forward seamlessly and to deliver on deadlines.

SleepOvation — Machine Operator, NJ — 2018 - 2022

- Constructed Mattresses in a warehouse setting. Prototyping Products - Built Prototypes of new products as well as testing rigs to meet strict regulatory codes.
- Helped the company go from a crew of 12 manufacturing 6 mattresses a day to a crew of 4 manufacturing 8-10 mattresses a day.
- Optimized manufacturing techniques by suggesting changes in work flow. (working in parallel vs serially), trained team members on new techniques, delegated tasks to suit strengths, etc.
- Troubleshooting/Maintenance of Machinery - took a proactive approach to solving future mechanical problems within the warehouse - Take apart tools and machinery for cleaning, greasing and repairing for re-use versus disposal.

EDUCATION

WEST ORANGE HIGH SCHOOL — DIPLOMA - 2010

NEW YORK CITY COLLEGE OF TECHNOLOGY (COMPUTER ENGINEERING TECHNOLOGY- 1.5 YEARS) - 2010-2012

GENERAL ASSEMBLY, NY — Certificate - 2023

SKILLS

HTML, CSS, JavaScript, React.js, Node.js, Python, MongoDB, SQL, GitHub
